<i>Description</i>	Designed with leading lactation professionals. This hospital strength, full-time use pump helps maximize milk output, is comfortable and gentle on breasts, and is quiet and portable for discreet pumping anywhere.	The Mya Joy has been designed with versatile features, safety and comfort, offering the best value for moms who are looking for a convenient pumping experience. Compact, lightweight and quiet, the Mya Joy also features the world's only FDA-cleared pump kit that helps protect breast milk from contaminants. This pump delivers on the ultimate promise of comfort by offering a wide range of settings, mom-friendly features, and flange sizes. Whether pumping on-the-go, at home or at work, Mya Joy offers pumping without compromise.	The Ameda Mya is a breakthrough hospital strength portable breast pump that is compact without compromise. Mya has 2-Phase Adjustable Suction Mode with 10 unique levels of Expression Mode and 5 levels of Massage Mode. Mya is small, super lightweight, ultra-quiet, and can be operated by a rechargeable battery. Mya offers moms a convenient, safe, discreet way to provide their babies vital nutrition with a new level of freedom. Whether it's work, travel, running errands, or just having a night out, Mya is the easiest way to pump on-the-go.	The Lansinoh Signature Pro provides advanced technology in a compact, convenient pump. Three pumping styles and eight adjustable suction levels and a digital display allow you to select the setting that works best for you. Two-phase Technology: stimulation mode initiates milk flow and expression mode maximizes milk flow. A closed-system design reduces the number of parts cleaned and prevents bacteria and mold growth. And its compact size and quiet motor make it convenient for the mom on-the-go.	Lightweight, portable pump with single and double pumping capability has quiet pump motor and 100% anti-backflow design to eliminate wasted milk. Nine suction modes (four stimulation and five expression). Large LCD screen keeps you in control by showing suction level, mode, timing and more; battery power option allows for flexibility in case you're not near an outlet.	Advanced motor generates vacuum with MaxFlow micro-vibrations for effective breast milk expression. Clinically proven to increase milk volume by 11.8%. Comfortable pumping: PersonalFit Plus breast shields with oval shape for more comfort and a better fit	Freestyle Flex™ is an electric breast pump designed to fit into your life: its light, compact design and USB-chargeable battery give you the flexibility to express wherever and whenever you like, with no compromise on pumping performance. Backlit Touchscreen Display makes pumping at night easier than ever. Keep Track with MyMedela App allows to connect easily with Bluetooth to keep track of your pumping sessions. 2-Phase Expression mimics baby's natural sucking rhythm – faster at first to stimulate milk flow, then slower to feed.	Medela's Sonata® Smart Breast Pump is a daily use, double-electric breast pump designed with you and your baby in mind and built for moms who pump several times a day. Created to enhance your breast milk feeding experience, Sonata delivers more milk in less time with 2-Phase Expression Technology when double pumping, compared to single pumping. Flexibility to choose from two clinically tested pumping rhythms for personalized comfort. Quiet when you need it most for discreet pumping situations like on-the-go or late-night sessions.	The S1 which is portable and rechargeable has Massage Mode stimulates the natural suckling of a baby. Ultra-Quiet Motor operates at 45 decibels (like the hush of a library). Backflow Protector protects your breast milk from harmful bacteria. Adjustable Suction Levels provides a more natural flow of milk. Night Light allows you to easily pump at any hour. Auto-Time with Display offers visibility and precision with every session	Massage Mode stimulates the natural suckling of a baby. Ultra-Quiet Motor operates at 45 decibels (like the hush of a library). Backflow Protector protects your breast milk from harmful bacteria. Adjustable Suction Levels provides a more natural flow of milk. Night Light allows you to easily pump at any hour. Auto-Time with Display offers visibility and precision with every session	The 9 Plus was designed for moms seeking portability and performance. Small, discreet, rechargeable, and weighing only 1/2lb, the 9 Plus is full of unique features that make pumping a more natural part of the nursing process, has Massage Mode stimulates the natural suckling of a baby. Ultra-Quiet Motor operates at 45 decibels (like the hush of a library). Backflow Protector protects your breast milk from harmful bacteria. Adjustable Suction Levels provides a more natural flow of milk.
